

# Lake Coordinator Report

**To:** Lida LID Lake Management Committee  
**From:** Moriya Rufer, Lake Coordinator  
**Date:** April 22, 2026

## Grant: Comprehensive Lakeshed Assessment

The project is complete! I am finishing the final report to BWSR so you can receive your last 10% of the funds. The Lake Management Committee is meeting with Aaron Larson at West Otter Tail SWCD Friday afternoon to talk about landowner projects identified in this study.

The last thing to do is make a one-page summary of the study for outreach to the Lake residents.

## 2026 Curly-leaf Pondweed

We are all set with a permit and contract with the herbicide company. See treatment area maps on the next page. We only need a spring survey for North Lida because we received a \$5,500 grant for the survey and treatment. We can survey South Lida in June again, after the treatment.

	Treatment Area	Cost
North Lida	2 acres	\$692
South Lida	13 acres	\$9,357
<b>Total</b>	<b>15 acres</b>	<b>\$10,049</b>

### South Lida Curly-leaf pondweed

**North Lida Curly-leaf Pondweed**
